The attention of Republicans throughout the State is expressly directed to the following provisions made for the establishment for the holding of State conventions and the election of the party.

That delegates to the State conventions shall be elected in the manner in which candidates for the General Assembly are nominated, except in Senatorial districts composed of more than one county, in which conference for the selection of Senatorial delegates shall be chosen in the manner aforesaid.

Second. Hereafter the State convention of the Republican party shall be held on the second Wednesday of July, except in the year of the Presidential election, when it shall be held not more than thirty days previous to the day fixed for the National Convention, and at least six days' notice shall be given of the date of the State Convention.

By order of Republican State Committee.

THOS. V. COOPER,
Chairman.

Meeting of Republican County Committee.

REPUBLICAN COUNTY COMMITTEE, SMETHPORT, PA., May 12th 1883. In pursuance of above call the members of the Republican County Committee are requested to meet in Smethport on Tuesday, June 5, 1883, at 2 p. m. for the purpose of fixing date and place of holding County Convention to select delegates and for the transaction of such other business as may properly come before the Committee.

M. A. SPRAGUE, Chairman.

THE Harrisburg *Telegraph* has put on a much needed new dress of type, and now the many good things in its columns can be read and therefore appreciated.

AN increase in the appropriations is one of the results of a "reform" legislature and they seem to think any deficiency in the revenues can be supplied by taxing oil.

THE venerable mother of ex President Grant died last Friday at the residence of her daughter in Jersey City. She was born in Berks county Nov. 23, 1789. By her request the funeral services were simple and quiet. Her remains were taken to Cincinnati for burial.

IT is stated that the New York *Herald* property is valued at ten millions of dollars and paid six per cent. on that valuation last year. Supposing the statement to be correct it is not a more paying investment, in view of capital invested, than many well managed worthless.

POLITICAL prophets who are casting about for presidential candidates are beginning to realize the fact that no man in the nation is making a better record than President Arthur. He is proving a statesman of the kind most acceptable to the American people a man of sense, tact, good judgment and broad, liberal views. None but cranks, theorists and self seeking political hangers on are dissatisfied with him thus far.

THE general appropriation bill has passed second reading in the House. The aggregate footing up to nearly four and a half millions. Among the items the amount proposed to be allotted to public schools is increased from $1,000,000 to $1,500,000. When asked from whence was to be had the extra half million those favoring the increase promptly replied "by taxing oil." There seems to be a settled determination on the part of the majority of the House to tax this commodity.

THE chairman of the republican county committee announces by a notice at the head of this column that there will be a meeting of the committee at this place June 5th, for the purpose of fixing the date and place of holding the county convention to select delegates to the State convention and the transaction of other important business. It is hoped that there will be a full attendance of members of the committee. Every indication points to a renewal of complete harmony in the party in the campaign this fall and consequent success of the ticket nominated, with the use of wisdom in the matter of its selection. The outlook is most hopeful to every good republican. The members of the county committee are selected by the republicans of the several districts as their representatives, and they owe it as a duty to their constituents to see that those by whom they are thus honored are well represented.

OUR Bradford cotemporaries are apparently very much exercised because of the fact that it is proposed to attach Potter to this county in the formation of a new judicial district. We fail to see what ground there is for so much ado about it. While McKean may have the requisite 40,000 population or did have two or three years ago—the addition of Potter as a judicial district will in no measure make the district unwieldly or make more business than one judge and his associates can properly attend to. It certainly will be an advantage to retain the services of so good a man as Judge Olmsted on the bench in this county, and we are inclined to think that the only people who will be aggrieved are the ambitious democratic aspirants for the appointment to fill the vacancy that would be occassioned by making McKean a separate district. There are many wide-awake, active, pushing and successful lawyers in this county, but we are not burdened with a surplus of acceptable judicial timber.

PERSONAL AND POLITICAL.

The Boston *Globe* is mean enough to speak of a young ladies' seminary as a "goose farm."

Commander-in-chief Vandevoort, of the Army of the Republic, is having a series of receptions on the Pacific Slope.

Fifteen millions of barrels of beer were consumed in this country last year, at the cost to the consumers of $480,000,000.

The New Orleans *Picayune* is informed that "the Philadelphia Senate" has passed a bill prohibiting the production of the "Passion Play." The *Picayune* is trying to outdo the London *Times*, but it can't.

Compromise ticket for 1884: President, R. Conkling, New York; Vice-President, C. Harrison, of Illinois. Platform: The right of an American statesman to make an ass of himself shall not be impeached.

Secretary Lincoln was under fire several times during the war. He was commissioned by his father, President Lincoln, as captain, and ranked as assistant adjutant general on General Grant's staff.

A month or so since we called the legislature the "Albany Lime Kiln Club." It was an outrage. Subsequent developments have convinced us of our grievous injustice. We truly and sincerely apologize to the genuine Lime Kiln Club.—Oswego *Times and Express*.

The Ridgway and Oil City railroad company was chartered Friday. The road runs from near Ridgway, Elk county, to Oil City, in Venango county. The length is sixty miles and the line runs through Elk, Forest, Venango, Clarion and Jefferson counties. The capital is $180,000.

Mr. T. T. Rainey, a leading comedian, who used to travel through here with J. F. Sherry years ago, is living at Bradford in extreme poverty. In those days Olman's Opera House was the popular place of amusement, and there Mr. Rainey used to amuse the large audiences that filled it.—Williamsport *Gazette and Bulletin*.

Shall the hog break the friendly relations of Germany and the United States? * * * Bismarck is aching for a war somewhere. Shall he try it on this country, and all because of a dispute growing out of his honoring the great American principal of protection by a more complete observance? That would be a lamentable conclusion.—Cincinnati *Commercial*.

An unusual opportunity now offers to those persons who hanker after titles and social distinction to attain the second highest dignity know on the earth. There is a little island to the east of Sardinia for sale at the moderate price of £30,000. It is the property of King Humbert, who is prepared to award the purchaser the title of king by royal letters patent should he so desire it.

There is no reason why President Arthur should feel annoyed at the conduct of the "machine." When he is least in harmony with the machine he is most in harmony with the people. He can get along quite well without the opposition of the New York politicians. They are a very provincial lot at best. New York is about the only State in the Union which thinks that it occupies four fifths of the map of the Republic. And the pity is that it cannot be convinced of its error.—Denver *Tribune*.

Senator J. D. Cameron and family left Washington Tuesday, preparatory to sailing from New York for Europe on Saturday on the steamer Celtic of the White Star line. The Senator has leased his house on Scott Circle for two years. The Russian Government was very desirous of obtaining possession of the residence for the use of its legation, but as it had been promised to another party in case the Russian Government failed to purchase, the latter was unable to rent the house, which is admirably adapted for legation uses. The lease of the premises for two years causes considerable speculation here as to the Senator's intentions for the future. He will return, however, in time for the meeting of Congress, but may leave his family in Europe for a longer sojourn; a possibility which will account for the long lease of his residence.—Harrisburg *Telegraph*.

New Issues and a New Party.

The spring of 1875 saw strong hope of democratic success, but it saw none so general nor so widespread as the spring of 1883. Current prediction sets that way; all the democrats and many republicans share in the prophecy that 1884 will see a democrat elected president. This widespread belief exists. There is no more use in quarrelling with it or denying it than in turning tail to any other fact. Nor is it accompanied by that general and universal dread of democratic success which an outlook of this kind has aroused in the past. There is serious and well founded apprehension at the effect on our manufactures of democratic free trade put into law, so serious that no democratic candidate whose chances are worth looking at could be hired to-day to write a free trade letter. We should like to see Mr. Watterson get Bayard's, or Hendrick's, or Cleveland's, or Thurman's signature to one of his free-trade editorial articles, in which he ladles out the genuine Kentucky article.

While dread of free trade exists, therefore, the prediction of democratic success does not scare us it did six, eight, ten years ago. What does this mean? Much every way; chiefly that the old danger points are passed. The debt is safe, the currency the same—barring silver—the national banks are good for another long period, war questions are settled, the negro is settling himself, and real peril being over, it is no use to try and protect this year's planting with last year's scarecrows. But there is a great deal in farming beside scarecrow.

The republican party, thanks largely to its own success in solving the difficulties of the past, has brought the country to a new start, in which the two parties are, in many respects, more nearly on a level than ever before. The process has been going on all the way from Vallandigham, for whom no loyal man could vote, to Grover Cleveland, for whom republicans voted by the ten thousand. The change is now about over; but by lessening the opposition to democratic success it has not made it certain. For from it—a party of fools will continue to bring forth folly in the future as in the past.

Republican success is, however, no longer certain on this account. The party must deserve success to win it. We have never believed that it had a life interest in administering the government. No party can have, unless it administers better and has a better policy than the other. In the main, the Republican has done well and will, but good administration alone is like honesty and good book keeping—a man will be ruined without them; but he needs more than these to rise in business. No party ever kept in power solely by good promises and good administration. It must have an active aggressive policy and get votes by giving voters something to vote for. Unless the Republican party does this its future must be clouded.

The issues are all before it where to choose. In our foreign policy, peace and arbitration upon this hemisphere, North and South, among nations bound by treaty to adjust their differences by law; protection to our industries at home, joined to a wise reciprocity with our neighbors on each side; equality for all American citizens within our borders, and without them the protection of just laws for our citizens, their enterprises and their capital; at home, freedom for the ballot-box, equality in taxation, a sound currency, no more silver, no more needless internal revenue taxation, and the wise use of Federal resources for internal improvements on both seaboards, the Mississippi and the Great Lakes alike. If the Republican party rises to these new responsibilities and proposes next year an affirmative aggressive policy to the country, its success will be as certain and as sweeping in the future as in the past.—Philadelphia *Press*.

Around The World.

Next Saturday evening the celebrated equestrian, John Thompson, is to appear at Kittredge's Opera House in "Around the World," and those who desire to forget, for an hour or two the harrassing cares of the week a day world cannot do better than to go and see him. Of his appearance at Buffalo recently the *Express* says:

Maud S has a remarkable record for fleetness, but her velocity is only trivial when compared with John Thompson, the comedian, who makes a tour of the world every evening. He started again last night on the "wild ship "Academy of Music," with a complement of passengers, every berth being taken, and a jollier set of passengers were never seen before; they laughed immoderately, and there was not a single case of sea sickness during the voyage. The only serious occurrence during the trip was, a few who nearly choked with laughter, while others gave vent to their emotion by shedding tears. As a comedian John Thompson cannot be surpassed, his versatility is astonishing and imitation is out of the question.

A Decline in Oil Production.

Messrs Bateman Cline and Capt J. T. Jones have compiled a stock report which shows a net decline during April of 54,639 barrels in the Bradford and Allegany fields. A summary of the report was published a day or two ago. Statistics were received from 4,987 wells. Of this number 4,163 were located in the Bradford and the balance in the Allegany field. The net decline is 5,013 barrels, an average of 10.81 barrels per well, which is 0.30 barrels above the average in March. There are now 12,381 producing wells in the Bradford field, which, at the same rate, would show a decline of 154,200 barrels, against 56,299 in March.

Shameless Larceny.

Women, when they want to plant flowers or flowering plants think there is no earth so good for them as that which is gathered about an old rotten log, and to the end that they may have this they are willing to undergo quite an amount of fatigue. Yesterday Miss Belle Mullin took a basket and went in search of some of this sort of earth, and in the evening returned with somewhere near a bushel of earth, tired but contented. She hadn't more than set it down, however, until some one took basket and all, the fruits of an afternoon's work. There is no reward offered.

More Sheep Killed.

During this week reports have been received at the commissioners office of another battle between the sheep and dogs of Lafayette township in which there has been considerable mortality among the former. It grows monotonous to read and hear of these skirmishes in which the sheep are continually getting the worst of it, and to give a little variety to this kind of news, it would be pleasant to hear of a set-to in which some valiant old patriarch of the flock had knocked the life out of a dozen or so of those worthless curs.

Verdict of Acquittal.

It is but a few weeks since the whole country one morning read and talked about the killing of Davis by congressman Thompson. Yet the following associated press dispatch shows that the people have condoned the crime and the jury have concluded to let the slayer go. "The jury returned a verdict of acquittal in the case of Congressman Thompson for the killing of Davis. The jury was out an hour. The verdict was received by a deafening shout by the densely packed house. Thompson was warmly congratulated."

Serves them Right.

The President of the Buffalo, New York & Philadelphia railroad has been authorized to bring a libel suit against the author of articles in New York papers pronounced false and injurious to the company. He says the debt is only $130,000, with $400,000 cash on hand, and the excess of unpledged assets over all unfunded liabilities is over $800,000.

Last Saturday night a party of young men from Eldred are accompanied by some of our friends here had a field day at a prom nent sporting house on Chamber street, but as far from considerable noise there was no fuss to find with them.

Hon. L. Emery has been at home during the latter part of last week, visiting friends and constituents. Mr Emery is very reticent as to his political course in the future, is generally but it is very evident that the people of the district [illegible] C. S. Wolfe is giving him trouble, and may yet have the whole northern end party.

The circulation of petitions has been changed in manner somewhat since the seat of the District Attorney, which I have mentioned before, and now it reduces by sending letters to individuals asking the couple of ten paying the old saddlers which are not all that possessed any other [illegible] worthy to be placed in the local spoil column.

Water and water works have often been the people to talk until the well known absence of water when it is wanted worst has long been held up before the city authorities that it has caused both either loss or inconvenience but if something is not done before long extensive complaints on the public water must suffer, as the quality during the summer months is simply a crime.

The funeral of D. J. Crow who for some years resided in this borough of the Johnsonburg Democrat, was very large [illegible] the deceased [illegible] of the deceased [illegible] perhaps two hundred men [illegible] preceding the hearse which bore the remains to the church and afterward to the cemetery. Last Sunday [illegible] were present both in appearance and [illegible] Elsewhere seldom seen.

Charley Fett, the jack man, has of late been doing something in the line of artistic painting, and has developed talent that bids fair to give him a place among the old masters. His best effort is that of decorating the grand Junk which stands in front of the Ben Tom cigar store and with the single exception that he gave the Asiatic gentleman a clear white, with a blonde moustache, he has done excellent justice to his subject.

Again have the city officials been at it this time they have, by a little grey, wandering increased the salary of the chief of police an officer by the way that the city could do very well without by making him health officer at a salary of one hundred dollars a year, which, added to what he already has, some eight or nine hundred dollars makes quite a respectable salary, and at the same time makes a fat place for a democrat under the republican city government.

It is wonderful how a little pugilistic reputation will stick to a man, and how ready people are to attribute anything out of the ordinary to prowess in the ring. A few days since our independent republican senator, L. Emery, was in town, and appearing on the streets with a scratch on his face, which he alleged was the traces left by a barber, there were not a few who at once jumped at the conclusion that he had been in another fistic encounter and as usual had come out second best. The fact that senator McKnight, of Jefferson, was not in the city gave additional color to senator Emery's denial.

The oil market has been of the distracting kind during the past week, and, although there have been no "lay downs" there have been a good many sadly pinched. From a steady going market, hanging in the nearest nineties, it went up to over a dollar and then the fun began. Men who were short, fearing that they had sinned away their day of grace, jumped into the market and loaded with "dollar two" oil, fondly believing that it would never be cheaper this summer, and whether they are right or not remains to be seen. There is no end of brokers who believe that $1.25 will be reached within the present month.

Nebraska is a good State—for jack-rabbits and alkali, but it don't suit the Bradford colonists. About three weeks ago a number of people left this city to seek homes, as they supposed, in that far off country, and have already—some of them at least—awoke to the reality that all is not gold that glitters. After arriving in that inhospitable country and becoming satisfied that there had existed no urgent necessity for their coming at the present, they are coming back, one by one to the country where they know they can find bread. Already Dr. Bass and Mr. Herrick have returned, and I understand the Dr. says he wouldn't trade his house and lot in Bradford for a clear title to the whole State of Nebraska.

Now this is the scheme that the boys say Roberts has on hand to dispose of his old horses and wagons preparatory to going out of the torpedo business: To the men who have been his shooters, and brought him in thousands of dollars monthly, he offers the teams they have been driving, at prices to be agreed upon and when they have had the money, he will take their notes properly endorsed, and as soon as he has disposed of all his teams and other machinery of the trade, they expect him to go out of the business and leave them to shift for their glycerine, while he will turn his attention to marketing his western lands. If this should be as they expect, it will make a very considerable change in the torpedo business of the whole oil country.

I went to see Mrs Langtry Tuesday that I went to see her I think I state fully the object of every individual who attended the performance, for I don't believe that any one went to hear her. Mrs Langtry is not an artist in her profession. Indeed, there are many amateurs to be seen on every stage that have more genius to a histrionic way than is possessed by this woman, but still it cannot be denied that she is lady like, and what she lacks in talent is probably fully made up by her very fine presence and feature lack of anything like affectation. Mrs Langtry is not an actress, but is she a factor a fact, but in appearance would seem to be a plain sensible, somewhat over fleshy English girl who with increasing years would accumulate wisdom, and finally settle down to the matronly state and occupation for which she seems to be eminently qualified.

The time has at length come when the glycerine and torpedo business is to be placed on a legal competition and the torpedoes who have so long been held back by the influences and oppressive alleged patent of Roberts & Co. are to be allowed to carry on their business without molestation or fear of prosecution. Among the torpedoes who have supplied the glycerine in days gone by to the business of prosecuting oil, there is none better entitled to the encouragement of the producers of the public than the Rock Glycerine Co., of which Dempsey & Frances are the principals. For some years these people have been manufacturing glycerine and selling to the general trade, but on account of the protection that an oil Roberts seemed to [illegible] patent, as claimed, they have withdrawn from this very torpedoing. Now they have in their employ, or will have as soon as the 20th has come and gone a squad of the most experienced shooters in the oil country, and they propose to put the business of torpedoing oil wells [illegible] Those who have had the most thorough and successful shell back of the country and whose anything to the way of cans or shells is wanted and they expect to be able to furnish them as well as the best quality of glycerine to be had.

Attractions at Woodmere's.

Since the return of Mrs. Gray with the magnificent line of dress and fancy goods, which she now displays at her store, it is a matter of considerable interest to the people and study the styles and if one is not prejudiced too much he cannot help but admire the taste displayed in the selection of this stock. The dress goods are especially fine, and the fact that no two are alike or rather that they are all in single patterns, will do much to recommend them, as a great many people prefer to have something that cannot be imitated by every one, and this gives them an opportunity. The other new goods are in keeping with the taste which Mrs Gray always displays in her selections, and for richness of quality have never been equaled by any stock brought to Smethport. As we said last week, if in town a great difference will be seen between the goods in the Eastern markets and there certainly can't be found any buyers who display better taste or sounder judgment in selecting goods than J. & E. H. Woodmere of Bradford. But to make a long story short, go into The People Store and see for yourself, and our word for it you will be satisfied.

Seasonable Fish.

A fisherman near Chester caught 237 shad in one haul of his seine recently. The fish were sold for $51.—Harrisburg *Telegraph*.

Erie fishermen are meeting with good success. Two men in a boat hauled in 600 pounds of perch, pike and herring in one day recently.—Erie *Express*.

Smith Corson and James Lattin, two professional nimrods, were in the woods last night and fished a good portion. Their catch was the finest reported at the *Era* headquarters.—Bradford *Era*.

Well, talk about your successful fishermen, "Tom" Connelly, George D. Hilwig and George Bodine started on Saturday last on a fishing excursion. To-day they returned and it may be recorded that they caught 775 trout, all of which were brought back to Bradford. Of all the successful people these folks are the most successful.—Bradford *Star*.

Mrs. Nash's Reception.

Last week a very handsome card called our attention to the fact that Mrs. Nash would give a reception to her friends and customers, but not being in town that evening we were deprived of the opportunity to attend, but made haste to do so as soon as we returned, and we think we know handsome things when we see them, but the new things at Nash's are certainly the handsomest designs ever sent out by the trade. In flowers, certainly there never was anything so beautiful as now, and while looking them over our only regret was that they were all for the women. They are worth seeing whether you want any of them or not.

A Mean Caper.

The average society young man of the present day is a hog. He will go to see his lady friend regularly when he can find no better amusement, burn up her father's oil, wear out the furniture, muss up her hair and keep her up till hours after she should be in bed and asleep, and then when the town gets a good opera or play in town will sneak off and buy a single ticket and go alone. It is a mean, boggish caper. Some of the Bradford girls think they do not deserve such treatment and want to know why it is thus. It is their own fault. They should insist upon their rights and set the dog on all such fellows when they come about the house. They are too heartless to be safe company and too mean spirited for good husbands.

A Slight Mistake.

The statement in the *Star* of last evening to the effect that a female prisoner had slipped away from one of the deputy sheriffs at Bradford after having been placed in his charge by the sheriff, was evidently written without a full knowledge of the real facts. The lady eluded the local officers before the sheriff or any of his deputies had taken charge of her. It may be safely assumed that no pursuit will get away after Whiteley or Roberts have got their hands on him or her respectively.—*Era*.

Busy Officials.

The county commissioners are, and have been for weeks doing more office work than any other county officials. They are at work night and day revising and equalizing the assessments in readiness for the appeals. Few are aware how arduous a task it is.

The Movement to Dislike Dukes.

The Dukes disbarment case was resumed in Court yesterday at Uniontown, but the respondent's council asked further time which was granted, and the case was continued to June, when it is expected that it will be decided, exceptions having first been filed and the testimony taken in the regular way.

The charges specified contain six counts the second of which includes nine particulars. They charge the writing of the letters to Nutt, that the letters are libels on Miss Nutt, and Messrs. Hagan, Kennedy, Frey and Bogardus, two of them fellow members of the bar; that these letters show that Dukes advised the father to procure abortion upon his daughter; that he is a self-confessed curse dropper and spy, and that he is guilty of traducing character and betraying friendship; that Dukes is grossly immoral and depraved, unfaithful untruthful, unscrupulous, vile, cruel, heartless and shameless; that he has forfeited the respect and esteem of the community and of the bar and brought disgrace upon himself and the profession, and, finally, that Dukes has proved himself so lacking in moral character as to disqualify him under the rules of this court and the laws of this Commonwealth, for the practice of the law at the bar.

CUT THIS OUT FOR REFERENCE!

AN EXTRAORDINARY OFFER BY A LIBERAL FIRM.

THE popular clothing firm of Joseph & Dornberg, of Eldred, justly deserves the patronage of this and surrounding section, for their liberal dealing with all who give them their patronage. The following is a proposition they are making to everyone in need of clothing or anything in their line.

HAVING an immense stock of spring and summer clothing for men's boys and children's wear, embracing all the latest styles and best makes, and wishing to dispose of same in as short a time as possible, have concluded to pay the railroad fare to Eldred and back of any one in McKean and Potter counties, providing such parties buy fifteen dollars worth or over of us. When we make this offer do not for a moment think that we will add said fare to the price of the goods. We guarantee the prices of our goods to be lower than same goods can be bought for at any other house in the county.

WE believe in advertising, and expend a great deal of money in that way. This season we take some of the money that we would otherwise expend in advertising, and pay the railroad fare of our customers to and from our store.

THIS will give everyone a chance to visit Eldred free. Perhaps you may wish to do other business while here, thus greatly lessening your expenses, while we will have the satisfaction of doing a big business even if the profits are small, for the saying is "many a nickle makes a nickle."

DO not fail to embrace this opportunity and call on us at your earliest convenience.

Respectfully,
JOSEPH & DORNBERG.

STRUGGLING FOR FREEDOM.

Reasons Why Phipps Should Have a New Trial and Judgment be Suspended.

Counsel for Major Phipps yesterday filed in the Court of Quarter sessions their reasons for asking arrest of judgment on the conviction of forgery, and why a new trial should be granted the accused. The reasons for arrest of judgment are nine in number, and are mainly technical. They declare the irregularity of the bill of indictment; its failure to charge an offense under the treaty by virtue of which the defendant was extradited, and assert that the Grand Jury which returned the bill was irregularly and unlawfully organized.

Sixteen reasons are assigned for a new trial, declaring that the Court erred in admitting as evidence of forgery the various warrants, the stubs in the warrant book and the testimony of the persons to whose order the warrants were drawn. The Court is also declared to have erred in admitting irrelevant testimony and in failing to instruct the jury that Williamson participated in the offense. Counsel also take exception to the Judge's charge upon the various law points raised during the trial and to the intimation given out by the District Attorney that if the jury acquitted the prisoner of the charge of forgery it was doubtful whether he could be tried for any other offense under the terms of his extradition. The sufficiency of Williamson's evidence was also questioned. Argument will soon be made before the Court upon both applications.—Phil. *Record*.

The Washington Monument.

To-day work is to be recommenced on the Washington Monument at the National Capital. It is now 340 feet high. When completed it will have a height of 500 feet of stone and 55 feet of glass, and will, it is thought, exceed in height the highest structure ever reared by the hand of man. The Strasburg Cathedral towers to the height of 468 feet, and St. Peter's at Rome 448; the spire of the Cathedral of Cologne rises to 511 feet, and the highest of the Pyramids was but 479 feet high when it was first built. Hence it appears that when, as is expected, the Washington Monument is completed in December, 1885, its topmost point will be some forty feet higher than any other artificial elevation.

Worse Than Heathen.

All those parents who allow their children to suffer with worms when 25 cents will buy a box of *Parmelee's Sanitone Worm Candies* which will immediately cure the child and remove the worms by disarming them. Do you know the symptoms? Feverishness, Sudden Starting in Sleep, bad breath, great desire for food day and night. Be wise and leave nothing to regret. Price 25 cents per box. Sold by A. B. Armstrong and F. F. Richmond & Son.

His Soul and His Silver.

"You asking me how I come to use it, reminds me of the story of the Scotchman who, on his deathbed, after a life of meanness, wanted to make things square with the Lord by leaving some money to the kirk.

"Will the Almighty pass me into Heaven if I give 10,000 pounds to the Kirk, d'ye think?" said he.

"I can't promise ye that, mon," answered the minister, for I will say to ye it's the experiment."

Laughing he-ritly at the story, P. K. Osborne, of Mt. Ephraim, Ala., went to a meeting of the First Baptist Church. West Hoboken, immediately. "That's what I did with Parker's Tonic; I tried the experiment. It never has met its equal for headache, and I am very glad to testify to its excellence. It goes at once to the root of all digestive and nervous derangements so common among men of my profession. For women and children I think the Tonic is a perfect nectar. Parker's Ginger Tonic is a perfect panacea, and is destined to supplant all other remedies for this purpose. A single dose convinces the gentle perspiration and sense of life which steals also diffuses. I am a Tonic very soon begin to activity. I admire it, too, for its power to antagonize the habit of the liquor habit over me I take."

This preparation, which has been known as Parker's Ginger Tonic, will hereafter be called simply Parker's Tonic. As unprincipled dealers are constantly deceiving their customers with inferior articles under the name of ginger, and as ginger is really an unimportant flavoring ingredient, we drop the misleading word.

There will be no change however in the preparation itself, and as Parker's Tonic the name of Parker's Ginger Tonic, remains the genuine medicine if the facsimile signature of Hiscox & Co. is at the bottom of the outside wrapper.

Its long-continued series of wonderful cures in all climates has made it universally known as a safe and reliable agent to employ.
